ARTIST LOVER'S PIZZA

Using the new information you've learned about your artist, create a presentation in Adobe Spark, Google Slides, or another platform of your choice.

Your presentation should have the following:

- *A brief biography of the artist* -
- *The art style or movement the artist was part of* -
- *5 interesting facts* -
- *3 different examples of the artist's work* -
- *A description and analysis of one of the works* -

MAKEY MAKEY MEATLOAF

Using the Makey Makey device, create an interactive artist presentation. You may choose to print out an image of the artist or a selected artwork by the artist. Using Scratch, record the sounds and information wanted in your presentation and code the scripts. Your presentation should have a minimum of 6 coded scripts. You may use the following options to help provide information for your presentation:

- *A brief biography of the artist* -
- *The art style or movement the artist was part of* -
- *5 interesting facts* -
- *3 different examples of the artist's work* -

TRADITIONAL ARTIST REPRODUCTION

Select your favorite artwork from the artist you researched. Using a medium of your choice, recreate the artwork in order to learn more about the style of the artist.

UNCONVENTIONAL ARTIST REPRODUCTION

Select two pieces of art: one from the artist you researched and another from an artist that has a contrasting style. Using the two different pieces, create an artwork that mixes the two different styles together.

For an added bonus, try putting your reproduction on an unconventional surface.

For example, instead of creating a painting on a paper or canvas, why not try a globe or a shoe?

ARTIST REMIX

Using one of the artworks you researched as inspiration, create a new artwork. This artwork should be your own original version with your own personal twist. Choice of materials is up to you.
